

It is an outrage for Sinclair Broadcasting to publicly air an anti-Kerry documentary - whether it be weeks, days or months prior to an election. I would feel the same way if a similar attack program was planned to air about other candidates as well.

Sinclair uses the public airways - and therefore does not have the right to present a slanted, distorted view of any candidate's background and credentials without presenting or offering equal time to the other candidate.

Please step in and forbid Sinclair to run this offensive program!
